## Expertise and integral plan for your spatial or urban planning projects

Global trends such as climate change, energy transition, growing urbanization, sharing economies and changing mobilities require an appropriate approach in a fast changing context, taking into account the specific local factors.

Our mission is to help you reach a high quality living and working environment that facilitates the daily convenience, well-being, safety and activities of local communities and companies.

The designers, architects, landscapers and engineers of Antea Group strive for a spatially qualitative, sustainable, resilient and healthy living environment, with a public space that facilitates interaction and contributes to the collective and individual well-being.
